Science – End Points

Year 2 End Points			
Living Things and their Habitats	Plants	Animals, including humans	Uses of everyday materials
1. I can sort things into living, dead and never alive. 2. I can explain what animals and plants need to survive. 3. I can describe a habitat and the animals and plants that live there. 4. I can explain how animals are suited to their habitats. 5. *I can identify a microhabitat and the creatures that live in it.*	1. I can identify plants that grow from seeds or bulbs. 2. I can explain how a seed or bulb grows into a plant. 3. I can describe the life cycle of a plant. 4. I can investigate what plants need to grow well. 5. I can explain why different plants need different amounts of sunlight, water and space.	1. I can describe how animals and humans grow. 2. I can compare the life cycles of different animals. 3. I can explain that some animals hatch from eggs. 4. I can identify what animals and humans need to survive. 5. I can explain how to keep my body healthy through healthy eating, exercise and hygiene.	1. I can explain why different materials are used to make different objects. 2. I can compare materials and describe their properties. 3. I can identify materials that can change shape. 4. I can recognise transparent, translucent and opaque materials. 5. I can explain how a material's properties make it useful for a particular purpose.
