## Spirituality within Science

Headteacher - Mr J Atherton

Science Lead - Mrs S Blundell

## Spirituality within Science at Leyland St. James' CE Primary School

At Leyland St. James', we believe that science and spirituality can complement each other in nurturing children's holistic development. Our curriculum encourages awe, reflection, and a deeper connection to the world around us. Science lessons will inspire children to ask big questions about life, the universe and their place within it, fostering a sense of awe and appreciation for the complexity and beauty of nature. Opportunities are carefully planned for ensuring children reflect on scientific discoveries and their implications through the use of studying a range of diverse scientists. In addition, scientific enquiry encourages children to be curious learners allowing them to ask and ponder profound questions.
